

AOPC

2021 SEARCH Symposium on Justice Information Technology, Policy and Research

Pennsylvania Clean Slate Implementation and Operations
Administrative Office of Pennsylvania Courts
Tuesday, July 13, 2021

Technology Design and Delivery

- Leveraged Existing Pennsylvania Justice Architecture
 - Statewide Case Management Systems
 - MDJS
 - CPCMS
 - Data Exchange for Case Dispositions through JNET to Pennsylvania State Police
- Developed an automated algorithm that aligned with the conditions of the statute
- Worked with Pennsylvania State Police and counties to break up volume of cases over the 1st year

Clean Slate Process

Monthly Candidate List

- AOPC identifies cases and offenses that qualify for Clean Slate (MDJS and CPCMS)
- PSP reviews identified misdemeanor convictions and reports any objections back to the AOPC

Order Issued

- Batches are processed through a new CPCMS screen to produce a court order and final report
- Common Pleas Judge can review a report listing each case and offense in a batch prior to issuing an order

Restrict from Public View

- AOPC restricts cases/offenses from Public Web Docket sheets, and indicates Limited Access status on the CMS screens
- PSP restricts from public access

Current Clean Slate Numbers

- Cases Processed: 37,422,562
- Offenses/Charges Processed: 50,554,383

Detail on Cases Processed for Clean Slate

■ NonConviction ■ Conviction Summary ■ Conviction Misdemeanor ■ Petition

Implementation & Support Tips

- Automated “algorithm” is complex and requires multiple days to complete when executed each month
- Responding to inquiries around why cases may or may not have been processed by Clean Slate
- Unforeseen impacts to business, policy and technical systems
- Conveying to policymakers IT capabilities
- Start discussions early with policymakers and implementation partners

Clean Slate Timelines

- Clean Slate I (2018)
 - One year to design, code and implement (June 2019)
 - One year to process through eligible cases for all years (June 2020)
- Clean Slate II (2020)
 - One year to design, code and implement (December 2021)
- Clean Slate III?
 - Requested a year to design, code and implement
